Legend

The diagram illustrates a legend for identifying components and interfaces based on their color:

- Power supply**: Red square icon.
- GND**: Blue square icon.
- System**: Purple square icon.
- Devices**: Magenta square icon.
- GPIO compatible with Arduino NANO (~PWM)**: Light blue square icon.
- GPIO ESP32**: Orange square icon.
- Analog inputs**: Teal square icon.
- UART/USART**: Yellow-orange square icon.
- SPI**: Cyan square icon.
- I2C**: Magenta square icon.
- USB data**: Grey square icon.
- Micro SD**: Maroon square icon.
- Led**: Red LED icon (red diode in a grey housing).
- Led**: Orange LED icon (orange diode in a grey housing).
- Led**: Orange LED icon (orange diode in a grey housing).
- Led RGB**: RGB LED icon (three overlapping colored circles: red, green, and blue).
